

**Resthaven is committed to the safety and well being of our clients and our staff.**

**When working in your home we require that our staff do not use any hazardous products.**

Safe Work Australia recognises various cleaning products as hazardous when they contain certain amounts of ingredients such as ammonia, sodium hypochlorite (often referred to as bleach), sodium hydroxide (also known as caustic soda) and glycol ether (a group of solvents).\*

### **Recommended Cleaning Products:**

**For cleaning in your home, we kindly ask that you provide the following items for our staff to use.**

- ✓ Two microfibre cleaning cloths (one for the bathroom and one for the kitchen)
- ✓ A good quality dish-washing detergent for general cleaning e.g. *Green Choice, Morning Fresh, Palmolive*
- ✓ *Gumption* paste cleaner (for heavier cleaning)
- ✓ *Orange Power Shower, Bath & Tile Cleaner* (foam spray only)
- ✓ Lightweight microfibre mop e.g. *Sabco/Vileda*
- ✓ Paper towel

**Sanitiser is available from Resthaven if this is required to clean equipment.**

### **We also recommend...**

**that you use a soap free shower wash with moisturiser, instead of soap, which is gentler on the skin and doesn't leave soap residue in the bathroom that is harder to clean.**

*\*Guidance note for the control of workplace hazardous substances in the retail sector, National Occupational Health and Safety Commission - NOHSC:3018(1994)*
