Chinese Cultural Workshops held at Resthaven

The residents of Resthaven residential facilities continue to benefit from the cultural workshops program offered by the Chinese Welfare Services.

Another two sessions were held in recent months – at the Leabrook residential facility, and the newly built Paradise residential facility.

These sessions combined entertaining and educational elements, highlighting the traditions, values and beliefs of the Chinese culture.

Cultural artefacts, costumes and significant items were shown and explained. The presenters talked about the meaning and origins of Chinese festivals and horoscope. A demonstration of Tai Chi delighted the audience, while the performance of 'Jingle Bells' on the Chinese flute provided an opportunity to sing along.

The residents really enjoyed the presentation and were interested in learning about another culture. After this informative and entertaining session, the invited Chinese guests had an opportunity to tour Resthaven residential facilities, share a morning tea and chat.
